Summary

I have over twenty years experience in education including both high school and higher education. During this time, I have served as a high school educator as well as a professor and administrator in higher education. While working in higher education, I have gained proficiencies in the areas of both student services and academic affairs. I have also participated in numerous community events as a representative of the institution. Additionally, I have served as assessment coordinator for Arkansas State University-Newport and remain active in the campus-wide assessment processes. In each academic role I have served, I have remained focused on student learning and continuous improvement through data-driven decisions. My goal is to bring these experiences to the office of Vice Chancellor for Academic Affairs at ASU-Newport.
